PROFESSIONAL SUMMARY

Pre-final year B.Tech CSE student at ITER, SOA University (CGPA: 8.8) specializing in Data Science and Full-Stack Development. Proficient in Python (Pandas, NumPy, Matplotlib) for data analysis and visualization, with working knowledge of Machine Learning using Scikit-learn. Experienced in building responsive web applications using Next.js and Firebase. Active open-source contributor (GSSoC 2024, OSCI 2025) with strong foundations in Git, problem-solving, and collaborative development.

SKILLS

Programming Languages: Python, Java, C, JavaScript, TypeScript
Data Science & Machine Learning: Pandas, NumPy, Matplotlib, Scikit-learn
Web Development: Next.js, React.js, HTML5, CSS3, Responsive UI/UX Design
Backend & Cloud: Django, Firebase, Authentication & Authorization
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

EDUCATION

B.Tech, CSE <i>Institute of Technical Education and Research</i>	May 2027 <i>Jagamara, Khordha, Bhubaneswar</i>
Higher Secondary Education <i>Balasore Higher Secondary School</i>	Feb 2023 <i>Balasore</i>

PROJECTS

- HireByte** [\[Link\]](#)
- Led Frontend Development using Next.js and TypeScript, building a scalable component-based architecture.
 - Developed a responsive, mobile-first UI with dynamic form handling and real-time validation.
 - Designed ATS-optimized resume templates to enhance keyword parsing and recruiter compatibility.
- Diaguard** [\[Link\]](#)
- Developed a Diabetes Risk Prediction System using Python, Pandas, NumPy, and Scikit-learn for data preprocessing and model training.
 - Built interactive dashboards with data visualization (Matplotlib) and integrated 3D visualization for enhanced health metric interpretation.
 - Designed a user-friendly interface to track health parameters and generate real-time risk insights.
- DSA Sync – AI-Powered DSA Tracker (PWA)** [\[Link\]](#)
- Developed a mobile-first Progressive Web App (PWA) using Next.js and TypeScript to track and analyze Data Structures & Algorithms progress.
 - Implemented AI-powered performance insights and analytics to identify strengths, weaknesses, and improvement areas.
 - Built collaborative features including leaderboards, streak tracking, and real-time progress comparison.
